ARIZONA EDVENTURES

Name: _____ Date: _____

100 Years Ago

What year was it 100 years ago? Investigate what life was like in those days. Read about the clothing that was worn back then, who was President, how many states were in the USA, what the US flag looked like (and how many stars it had), and other major differences between now and then. Consider what inventions weren't around at that time (air conditioners, computers, TV, video games, rockets, etc.) Write a report telling what you found out.
